Mix one pint of granulated sugar with 2 1/2 pints of water, and for 10 minutes. Put 2 1/2 ounces of Pinex (this costs 10 cents) in a pint bottle; then add the Sugar Syrup. Take a teaspoonful every one, two or three hours.

You will find that this simple remedy takes hold of a cough more quickly than anything else you ever used. Usually ends a deep seated cough inside of 24 hours. Splendid, too, for whooping cough, croup, chest pains, bronchitis and other throat troubles. It stimulates the appetite and is slightly laxative, which helps end a cough.

This recipe makes more and better cough syrup than you could buy ready made for \$2.50. It keeps perfectly and tastes pleasantly.

Pinex is the most valuable concentrated compound of Norway white pine extract, and is rich in quinine and all the natural pine elements which are so healing to the membranes. Other preparations will not work in this formula.

This plan of making cough syrup with Pinex and sugar syrup (or strained honey) has proven so popular throughout the United States and Canada that it is often imitated. But the old, successful formula has never been equalled.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

BIG PAY FOR EMPTY BOTTLES

ELKTON MAN OUT WITH STARTLING PROPOSITION.

Old Glass Bottles Worth a Penny or Two Will Be Bought for a Dollar—If.

For tired, overworked and run-down system, there is nothing better than Bear's Emulsion. It builds up the system, gives strength and health. It aids digestion by building up the stomach. And at the same time builds up the whole system. Now is the time to get your body strong and healthy, before the spring weather comes, which as you know, is the hardest time of the year on weak people.

We ask every run-down, nervous, aged, weak, or suffering-with-weak-lunged person to try a bottle of Bear's Emulsion with the understanding that if it does not do as claimed, he shall return the empty bottle and get exactly what he paid for it. For sale and recommended by all druggists in Clarksburg and the Johnson Pharmacy at Shinnston, W. Va.—Advertisement.

Dollar Diplomacy

This phrase now current in public print may mean many things. To us it means the system of insurance rates which ignores the fact that a non-user of alcoholic liquors is entitled to a lower rate.

Our new combination Life and Accident Policy rewards total abstinence with the special rate it should earn. This rate is lower than is usually paid for plain life insurance.

Mr. C. H. Mead, the well known Probationist and Lecturer of the National Temperance Society, has carried one of our large policies for many years and thoroughly believes in the benefits to be secured by non-users of alcoholic liquors through the combination Life and Accident Policy.

Recently Mr. Mead became Vice-President of this Association and he urges all men and women who are interested in temperance to write for further information about this policy.

Excellent opportunity for good agents.

A GOOD STENOGRAPHER

need never "hold on" to a poor position, where neither appreciation nor advancement are to be found. Some want advertising in the Telegram is pretty sure to find an employer for you who will value EFFICIENCY at something like its real worth.

Are Taken from Cabell County Jail to the State Penitentiary.

HUNTINGTON, Dec. 19.—Six prisoners who were held under sentence in the county jail, most of them having been sentenced at the recent term of criminal court, have been taken to the penitentiary at Moundsville.

Martin Fraley, convicted of embezzlement, was taken away after a year in the county jail. He was convicted a year ago but took successive appeals to the circuit and supreme courts, both of which upheld the action of Judge Taylor in refusing to set aside the verdict of the jury. He must now serve two years in the penitentiary before he is free.

Others who were taken away were Carl Guggston, T. F. Morrison, C. A. Branch and Charles Canterbury.

Guggston, who was one of the men who escaped from jail last summer after an assault on J. T. Shape, the turnkey, was given two years for maiming.

Morrison must serve ten years, having pleaded guilty to forgery on five counts, for which he received sentences of two years each.

Branch was given five years for forgery.

Canterbury was sentenced to the penitentiary for two years for maiming, the charge growing out of an assault on his father-in-law.

EXPLANATION
(Continued from page six.)

age a year on the commodity he sells provided he sells it promptly. Supposing he can not sell it promptly he has to pay interest on the capital invested in his stock. This cuts down his net profits. The failure of the current corresponding to 12 1-2 horse power in order to transform all the pressure (volts) to reach the motor at the same time as the volume of current (amperes) cuts down the amount of power delivered by the machine in precisely the same way as the slow sales cut down the profits of the business man. If the volts come a little bit later or earlier than the amperes so that 20 per cent of the amperes are not accompanied by volts this reduction is 20 per cent and the machine, or system, is said to have only 80 per cent factor. Therefore a generator with 80 per cent power factor would have to be big enough to transmit the power from a ten horse power engine. Twenty per cent of the 12 1-2 horse power capacity, or 2 1-2 horse power, is idle capacity. The remaining ten horse power are transformed, and the generator, by being built large enough to transmit 12 1-2 horse power, succeeds in transmitting the full output of the engine running it—ten horse power.

GETS STRONG GASSER.

The Elk Grove Realty Company has just drilled in a gas well that is good for fifteen to twenty million cubic feet a day on Flag run near Sardis. The flow was so strong at first that the drill was blown out of the well.

OFFICE
(Continued from page one.)

Sandy expects to visit friends in West Virginia for several weeks.

Mr. and Mrs. W. E. McCarty will leave the first of the week to visit the former's parents at Ann Arbor, Mich. Mr. McCarty is teacher of science in the High school here.

The bargain-hunting joke, almost outlived nowadays, once flourished amazingly with our joke-smiths. It is pretty well understood now, that the "joke," such as it is, is on the wage-earner of the family in which the buyer of household supplies is NOT A BARGAIN-HUNTER—and thus no reader of the Telegram and.

Plants in rather a hopeless condition. If they apply to one side for support and find the other side to be strong with the president, that will be "in bad." There are not many who believe that there will be any compromise between Chilton and McGraw when it comes to parcelling out the offices, and it looks as though the candidates will have to decide for themselves which side they will support and take chances with that side.

There are scores of applicants for the different federal positions which are to be filled, and when it comes to postmasterhips the list of aspirants would fill columns. Some of these offices are to be filled very soon; others at various intervals extending through the next three or four years. If any decision has been reached as to any of them it has not been made public. Doubtless those who expect to be in a position to recommend presidential appointments are waiting to ascertain the ground they stand on before undertaking to decide any questions of patronage. It may be some time after the inauguration of the new president before it will be determined who is who in regard to West Virginia appointments.

If your favorite store is sacrificing enough of the usual price of the thing you want to buy today to give you a week's "spending money" don't overlook the matter by failing to read about it in the store's ad in the Telegram.

Miss Rhea Warden, teacher of German in the High school, will leave Friday to spend the holidays with her parents at Grafton.

Mrs. E. L. Pigott and daughter left Thursday afternoon to visit the former's sister, Mrs. G. E. Price, of Philadelphia.

The Shakespeare Club has postponed its meeting until the second week in January, at which time the usual work will again be taken up.

Walter Fortney, of Oakland, Md., is a guest of his cousin, Miss Jessie Tress, this week.

Miss Rhodes, teacher of English in the High school, will leave the first of next week to spend the holidays with her parents at Hillsboro, O.

R. R. Hardesty was a business visitor at Worthington this week.

The Bull Moose oil well on F. C. Richardson's place is expected in soon. It is thought that this well will be a good producer, as the well on the Lucas farm in the same vicinity was a gusher.

Camden Conaway, who for some time past has been working for the Shinnston News, has accepted a position with the Weston Star during the holidays.

The Sunday school of the Methodist Protestant church will render a short program Sunday morning, consisting of songs and readings by the primary classes. Santa Claus will also appear with his bag full of candies for both the young and the old.

George Sandy, of Liberty, Sask., Canada, arrived here this week. Mr.
